Voices of the Athletes

Johannes Mallow GM

Memocamp is the best online training-tool on the market right now. With many statistic functions and the the training-diary it provides everything you need for the preparation for a competition. Furthermore this is just one aspect, because Memocamp has a high potential to act as the first computer-based competition program in the history of Mind Sports. Competitions are always running and the new Live-Competition is a fantastic step towards the future of memory-competitions. You will get your results immediately after finishing recall. The audience can see the competitors entering their memorized numbers, words etc. live on a big screen. The actual points are calculate live and with the nice graphic feature

you can watch the race of points between the top competitors. For the first time this gives the chance to have a live-comment during the recall time for the interested audience.

Jürgen Petersen GM

„Memocamp works great and is reliable. The annoying marking especially of the long disciplines gets needless and the results are provided instantly. Especially the competitors of the World Championships out of the Top Ten WMC competetors would have gotten there correct results instantly, if Memocamp had been used.”

Boris Konrad GM

Memocamp allows me as memory athlete to practise all of the disciplines frequently, especially those that were involved with huge efforts in the past like Names and Words. It is fantastic and eases the use heavily, that I can set up my own focus and group f.e. 6 digits per location of my journey. Instantly after finishing recall I get my results, support or arbiters are not necessary anymore. I can see where I made mistake, check myself and can be sure to have an error-free marking. This makes Memocamp also very interesting for tournaments since human mistakes are voided and results provided on the spot. Therefore I support the use of Memocamp in memory competitions.

Florian Dellé

Memocamp makes my memory training quick and comfortable. There are all original disciplines and even some great fun variants. But the best thing is that I can use all my systems and analyse my statistics to improve myself.

memocamp's features

Disciplines

- ✓ All disciplines of the memory competitions are held following the official rules and procedures of the WMC
- ✓ Exact marking and scoring according to WMC rules
- ✓ Every athlete gets Historic Dates, Words and Spoken Numbers in their own language
- ✓ Memorisation on PC or iPad possible
- ✓ Recall on PC or iPad possible
- ✓ Memorisation on Paper and Recall on PC or iPad possible
- ✓ The content of Random Words, Historic Dates, Names & Faces etc. can be provided by the arbiter before the competition if a competitor does not want to use existing archived material

Marking

- ✓ Fully automated marking – no arbiters necessary
- ✓ Instant marking and possibility to analyse at once the score for the athletes

Media/ Audience

- ✓ Live broadcast to an audience room
- ✓ Live Moderation of the competition as in other sports
- ✓ TV live broadcast possible
- ✓ Possibility to include commercials

About Memocamp

- ✓ Over 1000 registered members
- ✓ The leading memory athletes train on Memocamp
- ✓ Constantly improved
- ✓ Wishes of the athletes are acted upon quickly
- ✓ The athletes support the enhancement towards an optimal training tool
- ✓ Analysis of error of one's images and mental journey locations

Benefits

For the athletes

- ✓ Individual focus
- ✓ Instant marking after recall is finished – the athlete can analyse his own performance
- ✓ Every athlete can set up his own recall sheet using his own memory systems
- ✓ No mistakes caused by wrong marking
- ✓ Faster and more reliable tournament schedules

For the WMC

- ✓ No marking effort
- ✓ No preparation of disciplines, no copies, no distribution of sheets ...
- ✓ Instant and correct results
- ✓ No problems with bad hand-writing
- ✓ More time to care for athletes, arbiters and the media
- ✓ Reliable schedules
- ✓ Flawless competition proceedings
- ✓ Makes it an event also for the audience!
- ✓ An additional platform to broadcast the competition
- ✓ TV broadcast possible
- ✓ Easier commercialization
- ✓ Possible to have a moderation for the audience
- ✓ Live broadcast online
- ✓ „A look over the competitor´s shoulder”
- ✓ Modern events on the edge of technology
- ✓ A „complete“ tool that fulfils most wishes
- ✓ High acceptance of Memocamp by memory athletes
- ✓ Outlining the methods to the audience

Live Competition

View of the audience during memorisation

Moving focus of the athlete displayed

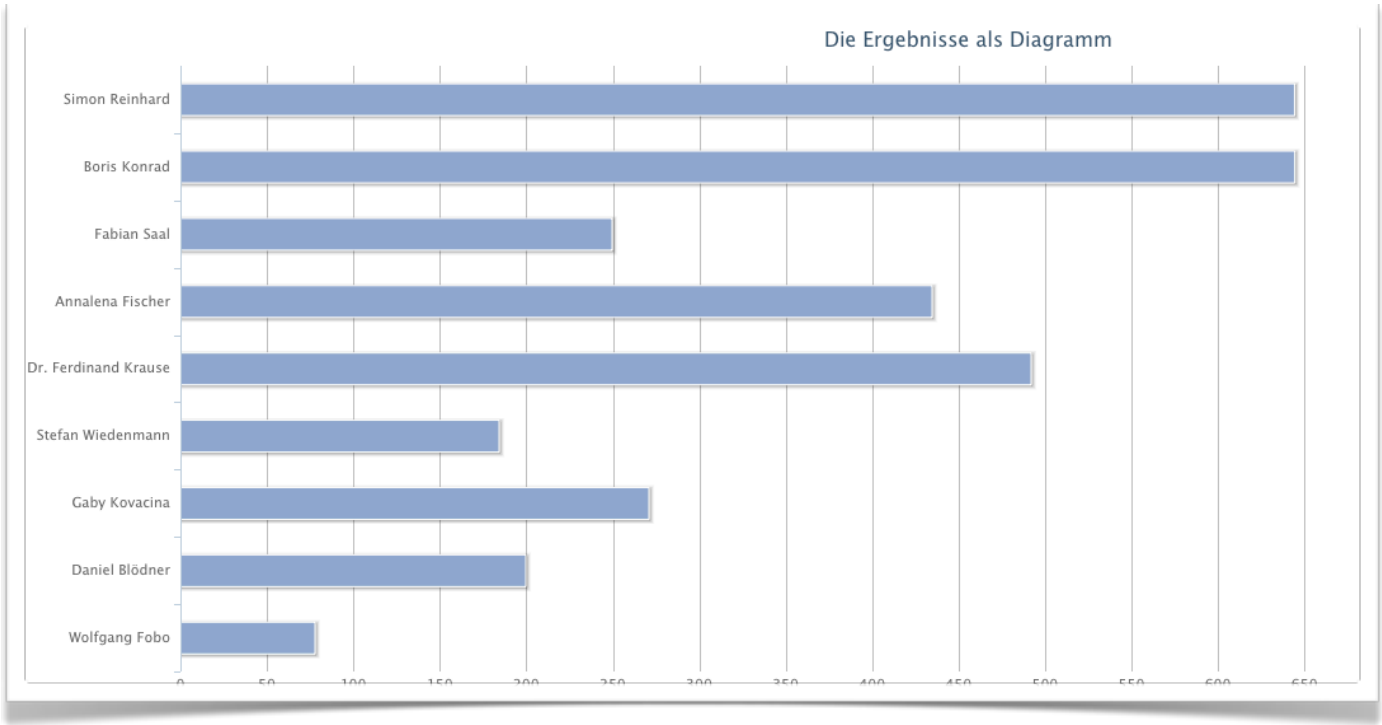

View of the audience during recall

During Memorisation and recall it is possible to have a look “into the mind of the athletes”.
